## “Deposit” Changed to “Purchase Credits” on Account Screen

Based on customer feedback, the term “deposit” causes confusion so the Deposit option on the account screen has been changed to Purchase Credits to make it clearer that the function is for users to purchase credits to create prefixes or codes.

## Link to Purchase Credits on Code Creation Screen

When an account does not have enough credits available to create a code, the code creation screen will indicate that there are 0 codes available. Once the required code information is completed and the page is submitted, you are brought to a payment screen to pay for the code. If you would like to purchase credits prior to creating codes, a link has been added to the code creation screen to access the account to purchase credits prior to creating codes.

> Create a new Ad-ID.

The screenshot displays a form with three dropdown menus: 'Group' (Agency Inc-Valmor Inc), 'Prefix' (VLMR - Valmor), and 'Account' (Valmor Account (Balance: 0)). A red error message box is overlaid on the 'Account' dropdown, stating '0 codes available¹. Payment screen will appear on the next page if no credits are purchased.' A red arrow points to a blue link within the error box that reads 'Click to Purchase Credits Before Creating Codes'.
